Dear Sir/Madam

RE: Committee Inquiry (The Management of the Murray Darling Basin) – Submissions (Additional Information Received – Item 33), Mullaley Gas & Pipeline Accord

Further to our correspondence (12/09/11) and telephone discussions with Senator Bill Heffernan yesterday.

The reason for Namoi CMA's request for the abovementioned Report to be withdrawn is that whilst it is factually correct it relates to a neighbourhood dispute and the utilisation of a road.

Furthermore, whilst it does canvass some broader floodplain issues it was not written from the perspective of providing a detailed commentary on coal seam gas and related pipeline issues.

In concluding should you have any further queries in relation to this matter please contact me on (02) 6764 5991.

Yours sincerely
