Submission to the Inquiry into the Fair Work Amendment (Small Business-Penalty Rates Exemption) Bill 2012

I am a permanent employee, working as a Electrician, currently earning around 40 per hour.

I work in the alumina refining industry ,my family of 4 boys are grown up ,2 of them also work in the refinery ,my wife is a teacher recently retired . We live in a remote town in the NT with very high shopping costs due to freight.

If penalty rates were abolished..my earning capacity would be seriously reduced. I work weekends as part of my dayshift roster. My hourly rate is the same for all shifts including weekends ,this is so because the penalty rates have been taken into account in the calculation of my hourly rate . This is easier for my employer to administer..

My weekends are important to me because...they enable me to keep in contact with

Family and friends, and pursue other interests that benefit the community as a whole such as sport, music and local Govt.

I urge the committee to keep penalty rates because they are fundamental to ensuring fairness and equity in the workplace. As I have stated earlier my penalty rates are incorporated into my all purpose rate this should be possible in other industries where work has to be regularly worked on weekends and Public holidays.
