Notes:

- Disability enrolments include students who ask for help with their disability or who have specified a type of disability on their enrolment form.
- Students from regional/remote areas refers to students living in areas classified as regional/remote under the ARIA classification produced by NCVET. DEEWR has determined that all regional centres are included. Area of residence is based on the student's postal postcode.
- The Average Unit/Module Completion Rate is the percentage of pass units/modules results over the number of pass, fail, and withdrawn results. This is calculated for assessable modules only. Multi-year enrolments are excluded.
- The student outcomes here refer to TAFE NSW students only. The full survey includes students from all VET providers as well as students whose training was on a fee-for-service basis. For further results see Tables 9.15 and 9.16, NCVET Student Outcomes Survey.
- The full nominal hours associated with Recognition of Prior Learning (RPL) activity are included in the number of hours reported.

■ LBOTE = Language Background Other than English

■ The term "Aboriginal" includes both Aboriginal and Torres Strait Islander people.
