

Who or what is Origins SPSA Inc?

About Origins Inc SPSA Supporting People Separated by Adoption

An overview

Origins SPSA Inc was formed in 1995 by a small group of mothers who had lost children to adoption, not only in Australia but also from other parts of the world. This group of women had been previously involved with other groups including Jigsaw, Mothers for Contact, before they formed Origins this was with the intention of exposing the mental health and legal issues primarily of adoption, and later family separation of children, by forced separation practices and policies.

As an incorporated association we have followed the code of practice for that status, and have been audited, etc on an annual basis

Origins being a forerunner and the only independent organisation of its kind in the early 1990s also attracted, supported and formed partnerships with outreach programs and networks for people separated from their families through various forms of confinement in State and religious institutions including ex-foster care leavers, also Stolen Generations. We are also an organisation based on researching the mental health and legal issues of adoption, separation and removal

We have 3 state Coordinators and committees in each state; we also have groups in Canada, USA, with affiliated networks in the UK, Scotland, NZ, and Korea, and have sponsored 2 adoption conferences in New York, and three websites built and maintained by committee members.

We have a membership base of over 750 clients mostly mothers who have lost children to adoption and a significant number of adoptees and Forgotten Australians, also a number of Stolen Generations who have also been affected by all three issues, and an extensive library of historical resources on adoption,

etc

Unlike other self help groups, we at Origins are an independent organisation that has not received funding from Federal, State or Church organisations for adoption focused issues, so we rely for the most part upon our membership subscriptions and invaluable member volunteer committee for our survival.

We have over the past few years been granted a small amount of Federal Government funding for Stolen Generations projects and for assistance to host Sorry Day events etc

We have also received financial help from two of the local community sporting clubs being The Mounties and Cabravale Rugby league clubs who graciously paid the rental on our drop-in centre and office for a period until the competition for funding became too difficult to compete against larger organisations that could lobby more successfully for limited funds

Over the past 16 years Origins has also been instrumental in contributing to legislative change and also with input into a number of Parliamentary Reviews, State and Federal Inquiries and other initiatives by State and Federal governments.

As there was limited support for clients affected, before the emergence and awareness of the Forgotten Australians issue, and out of necessity we broadened our support network, it was also becoming apparent that those people affected, were in many case also were affected by adoption our original charter.

Origins has worked in partnership with other groups, indigenous and non-indigenous, and is currently represented on peak national groups by Mrs Pamella Vernon Souris on the Forgotten Australians Alliance and by Origins Coordinator Lily Arthur on the Stolen Generations Alliance where she is the non-indigenous delegate for New South Wales. We are to our knowledge, the only support organisation that is actively representing on a national level with past child removal or institutional issues.

We have also held three national mental health conferences on the mental health damage of family separation which included, people separated by adoption, state ward ship, indigenous groups, British child migrants and persons conceived by A.I. plus other groups etc. Origins although initially founded to deal with adoption issues quickly realized that adoption also encompassed a number of contributing factors, and was one of the first independent organisations to not only support these groups but also to take an active part in issues associated with The Forgotten Australians, and was called to give evidence to the 1998 Forde Inquiry Into the Abuse of Children in Qld Institutions, the Senate Mental Health Inquiry and the second Forgotten Australians Inquiry

We have also participated and provided information in a number of productions including the Film Australia documentary “Gone to a good home”, “Operation Baby lift” and more recently “The Fence” a play about “Forgotten Australians”

Origins Services

We had a council office at Bonnyrigg Community Centre Bonnyrigg NSW that we occupied for 5 years and lost it due to the lack of funding and moved to a private residence where we continue to operate.

Currently we have played and still play an active part in Apology Day and Sorry Day Celebrations and have helped to organize a number of local events for the Indigenous community, and also provide social events and meetings for people separated by forced adoption

We provide welfare services such as

- Counseling and advocacy.
- Welfare relief such as water and food vouchers, clothing, furniture, etc .
- Information and referral to other welfare organisations.
- Searching advice and help and also mediation with reunions.
- Websites, on line chat forums and quarterly Newsletters.
- Workshops and art projects
- Public speaking etc
- Social events.
